

Maximize the Value of Your Company's LIC Membership ***A Personal Network of Peers Sharing Practical Solutions*** ***for Companies with Limited Resources***

The Life Insurers Council brings together senior-level insurance company executives to share issues and practical solutions especially applicable to small to midsize carriers. To provide focused value for members, LIC offers Networking Committees in 13 specific areas of interest.

These groups meet annually to discuss the topics they find most important and timely (www.loma.org/LIC/Events.aspx). The meetings provide a unique opportunity for members to learn from one another and outside speakers. In addition, they enable LIC to stay informed of the challenges member companies face in order to provide relevant solutions and resources. LIC Affiliate Member vendors also participate as committee meeting sponsors, providing expertise and perspective to insurance company members while also getting to know their marketplace better.

To supplement these face-to-face meetings, LIC Committee members have year-round access to **LIC Connect**: online communities where members can pose questions among peers, participate in discussions, and access informational resources.
